

## *1st. Virtual Café of the Supreme*

Celebrating the 07/24 as well as the 2 years of the meeting held at the Convention Center in the Sao Paulo's State countryside, some Ladies had a virtual meeting chatting about their routines with the CCoVID-19-19 quarantine and, mainly, about **FEMALE SUPREMACY**.

While they sip teas, coffees and enjoyed cakes in their homes, they talked about one hour and a half on those topics.

The opening, as always, was carried out by the Ambassador of the Order of Female Supremacy directly from Malaga, **MADAME FADO**, with the translation from French to Portuguese by **MISTRESS SOFIA ZANON** as it follows:

Hello dear friends, I speak to you as Ambassador of the Order of Female Supremacy. You can see through my coat, the strength of the "**FEMALE**".

The bull symbolizes the masculine strength. However it has a nose ring shaped as the **FEMALE** symbol, representing the role of **WOMEN** in taming the masculine force, used by them to dominated the world, imposing the patriarchy values for centuries.

So, taming the bull is imperative and must be done for the benefit of **WOMEN** and the benefit of all as well.

The coat of arms shows in the upper area a rose and a whip, representing the **FEMALE** beauty and mildness, however, presenting the thorns, which should not be removed because when someone want to pull that rose or shatter it, the thorns will hurt the aggressor for sure, so it has the meaning of protection for **WOMEN**.

The whip symbolizes training and punishment, the way to educate and train men.

**MADAME FADO** also emphasizes that everyone should try to adapt these symbols in their relationships.

- I live in southern Spain, I am French and can not speak Portuguese. So, I will not be able to participate in the commemorative event of that important date, which is the 24/7, but I am sending my greetings to all of you, wishing it will be a useful virtual meeting where we'll always remember that we are **WOMEN** and we want to be truly **WOMEN**, striving to be complete and strong, especially in difficult times.

She also observed that **WOMEN** must practice 24/7 during all days of the year and not only on the very 24/7. So, this celebration must take place every day. We are going through difficult times and nothing will be the same as before the corona virus pandemic.

Now we wear masks and practice detachment, but we thank the internet to make this meeting happens, even though virtually. **HURRAH THE FEMALE SUPREMACY.** Thanks to you and huge kiss to everyone.

**LADY AMA** stated a brief introduction on the importance of the meetings, looking back on the last ones and asked for good vibes for the parents of **REGINA DI POSITANO** and **LADY BÁRBARA** who are hospitalized.

One by one, the participants talked about their routines during this quarantine, being remember by **MADAME SARITA** that there are already 114 days of it. The consensus was that the pandemic has it positive side with reflections, such as on line courses, arrangements and changes on behavior.

After the pronouncements of all the ladies **IMPERATRICE BEATRIZ** toasted the presents with their delicious declamations.

First "*Loving you is a matter of minutes ... Loving ...*" which can be read at:

Finally, **LADY AMA** reinforced the concept of "Egregore", where two or more people gathered with the same thought, creating a protective energy that contaminates and strengthens them.

This "Egregore" considered sum of and energies, meetings mental emotional so

like this, are necessary and important to maintain the flame of the **FEMALE FEMALE SUPREMACY.**

**SENHORA SOFIA ZANON** recalls that she has already composed a song on this theme and at the next meeting she will be able to present it.

At the end of the "Café Virtual das Supremas", those present were welcomed and all **LADIES** wish for a further meeting as soon as possible.
